

Skyline Room

Perched on the Museum’s topmost floor just beneath the 230-foot spire, the Skyline Room offers panoramic views of the Charles River, Back Bay, Boston, and Cambridge through two walls of floor-to-ceiling windows. By day, natural light floods the space while birds wing by at eye level. By night, the sparkling mosaic of city lights provides a dramatic backdrop for any evening event. Sunsets are spectacular!

Availability

Available days and evenings.
 Room dimensions: 56' by 44'
 Various room layouts are available, please call the Event & Conference Services Department for further information
